IOC Consensus Meeting on Sex Reassignment and Hyperandrogenism November 2015:

1. *Those who transition from female to male are eligible to compete in the male category without restriction.*
2. *Those who transition from male to female are eligible to compete in the female category under the following conditions:*
 - a. *The athlete has declared that her gender identity is female. The declaration cannot be changed, for sporting purposes, for a minimum of four years.*
 - b. *The athlete must demonstrate that her total testosterone level in serum has been below 10 nmol/L for at least 12 months prior to her first competition (with the requirement for any longer period to be based on a confidential case-by-case evaluation, considering whether or not 12 months is a sufficient length of time to minimize any advantage in women's competition)*
 - c. *The athlete's total testosterone level in serum must remain below 10 nmol/L throughout the period of desired eligibility to compete in the female category.*
 - d. *Compliance with these conditions may be monitored by testing. In the event of non-compliance, the athlete's eligibility for female competition will be suspended for 12 months.*
